Welcome to the Illinois Women's Health Registry!

In order to continue, click on the "Enroll" button located at the bottom of the page.

1. READ THE CONSENT FORM

Next, you will be brought to a webpage which contains detailed information about the Registry and asks for your consent to participate. Whether or not you choose to participate is entirely up to you. After reading, if you decide you want to continue, scroll to the bottom of the webpage where you will find a green "ACCEPT" button. Click "ACCEPT".

2. CREATE A USER ID

After, you will be provided information about REID Central Authentication System, which is the secure system used to store the information you provided to the Illinois Women's Health Registry. Once you finish reading, click "CONTINUE."

3. VERIFY YOUR ACCOUNT

In the Illinois Women's Health Registry How to Enroll A Step-by-Step Guide, create your account by entering your email address and a password. TIP: Your email address must follow the format of name@domain.com. Keep in mind, a password is longer than a passphrase, it requires at least 20 characters.

Once you successfully enter your email address and passphrase, you will be directed to the verification page. In a separate browser window, check the email account associated with the Registry to obtain your verification code. A verification email should arrive within 5 minutes of creating an account. Open the email from REID which contains your verification code and navigate back to the REID Central Authentication page and enter the code you received in the email and click 'SUBMIT'.

4. PERSONALIZE YOUR EXPERIENCE

Once you are verified, you will be asked to provide your full name and confirm that your email address is correct. Once you are finished, click on the button 'SAVE CHANGES'.

5. COMPLETE THE REGISTRY QUESTIONNAIRE

If you have not started the Registry Questionnaire the status will appear as "Not Started". Click on the text "Illinois Women's Health Registry Questionnaire" to access the Questionnaire. Fill out all the questions. You can select "Choose not to answer" for any question you do not wish to answer.

If you missed or skipped a question, you will not be able to proceed to the next page of questions. If you do not answer all of the questions you will be notified at the bottom of the page "Please complete all required fields before proceeding." Once you have completed the Questionnaire, you will have the option to save your answers. Click "Save Submission". You will have the option to edit any of your responses by clicking "Edit" in the box of the corresponding question for which you would like to change. You can enter your new response and select "Save" or "Cancel".

Complete the Registry Questionnaire by clicking on the "Record" icon in the top left corner.

After you have entered your answers and/or made any edits, scroll to the bottom of the page and click "Complete Form". You will not be redirected back to the Records page. Your Registry Questionnaire should no longer appear as 'Complete.'

To edit your account, click on your name in the top right corner and click on 'Log Out.' Be sure to save your passphrase in a safe place in case you need to access the Illinois Women's Health Registry again.
